Nickel Bingo Results

**Ken Dewerson - two x's/ one line. Bob Shabatura - two lines. Paul Snider - two lines.
Maretta Saulnier - one line. Syd Birch - one line.**

Penny Roundup

Question: Do you dig a lot of those pesky pennies when you're out detecting? Not enough nickels? What if you could exchange all those pennies for nickels?

Answer: Bring your pennies to the August 19th club meeting and go home with nickels.

This is the way it works:

- 1. Bring all pennies detected after the July meeting to the August meeting.**
- 2. Bring your bingo card(s).**
- 3. The Huntmaster will collect your pennies and record your total count.**
- 4. A number between 1 and 75 will be drawn. If that number is on your bingo card(s), you are a winner!**
- 5. Winners may exchange all their pennies for nickels.**

Other Rules:

- 1. There may be several winners.**
- 2. If you have the winning number on more than one card, you are a multiple winner.**
- 3. All pennies entered are donated to the club. You knew there would be a catch!**

LOST & FOUND

LOST ENGAGEMENT RING RETURNED

July 17, 2014

The distress call came in at noon," I have lost my diamond ring, can you help me "My response was, I will be there in 30 minutes. Michelle was on vacation in Kelowna, from the lower mainland. The temperatures in Kelowna have been over the 35 degrees Celsius, so a dip in the lake was in order. Michelle gave her wedding band and engagement ring to her mother for safekeeping. Mother put them on a safety pin, when they arrived at the car only the wedding ring was on the pin. I arrived and they showed me the part of the beach where they were sitting, hoping that the ring would be at that location. Talk about lucky within two minutes the ring was returned to the excited Michelle. My reward was the smile on her face and the sale of 2 Westjet Raffle Tickets.

BOB & KEN'S TWO UNUSUAL FINDS

Bob Shabatura found a 14k ladies diamond engagement ring. Two days later while talking with the beach concession vendor, he told us a young lady had lost her diamond ring by the trees on the beach. He had a note with the ladies phone number on it, How many diamond rings do you find, so we know it had to be her ring. Bob made the phone call and got the ladies mother.

He told her that he might have her daughters lost ring. What lost ring? was the reply, describe it to me. Bob said no, no, no, you describe it to me. In the end Bob said I think it's your daughters ring, have her call me. Now three weeks later and no phone call from the owner. We checked back with the vendor, and no contact with the lady. Go figure.

On the same beach Ken got a good signal in the sand. On moving the sand there was a wooden treasure chest. Inside was some plastic gemstones, figurines, toys, some coins, and Scandia tokens. In the bottom was a note in kids handwriting that said:- Congratulations you have found my treasure, I hope you enjoy it. I suspect it was a kids geocache, the proper thing to do is to replace it with something else. I didn't see the value in replacing it as the

beach groomer would have destroyed it. My grandchildren loved it.

Ring Found & Returned

July 12th, 2014

About a week ago I read a message on the St. Andrews by the lake blog that a lady, while playing golf at our course, had lost a very valuable ring. I contacted the lady and we arranged to meet in order to discuss where it had been lost. She had taken the ring from her finger and placed it in her pocket while she played the round of golf. She thought that it had fallen from her pocket somewhere between the 2nd and the 5th hole or possibly at the 9th hole so I left my detector at home and agreed to walk the course with her and note the best places to search. I drew a map of the course and as we walked I marked all the places where she had stopped to play her ball and the path she had followed. I could only search the course for 1 hour each day after closing so I thought it might take a long time to cover all the fairways. The first evening I searched the 2nd fairway and part of the 3rd and marked the place where I had to stop for the evening. The second evening out on the course I started from my mark of the night before, took about four steps with my detector, heard a good repeatable signal and pinpointed the ring. I was back home again in 10 minutes, phoned the lady, who came right over and claimed her ring.

The ring is 14K gold with 7 diamonds. Value to the owner, priceless.

I was very lucky to find a ring that was lost “ somewhere “ on a golf course.
Certainly a first for me.
