## **HERE ARE MORE CLUES**

From where I rest I can see running water, not very far away, a 2 foot cedar amongst the deciduous, is in the area where I lay. A farm implement of yore is nearby, You can't get to me via a back street, so give it another try. Cars and trucks go round and round, about 40 steps away, Don Quixote's imaginary giant, is to the left of where I lay.

## **LOST & FOUND**

### **LOST RING LOCATED AT CEDAR CREEK PARK IN KELOWNA - Sept. 11 By Ken Dewerson**

It was a late summer evening at Cedar Creek Park in Kelowna. Dee and her husband were out walking the dog down by the lake, Dee was engaged with her dog by throwing a ball into the lake, she was shocked when along with the ball into the water went her large silver and turquoise ring. Both she and her husband spent hours searching the knee deep water for the ring, unfortunately the beach was rocky, the lake was wavy, with shadows on the rocks. The ring had fallen between the rocks and was difficult to see, Dee googled for help, and got me. I responded the next day with my metal detector to assist them in their search. I knew the ring would not be hard to find, Dee was sure of the location, she saw it flying, she said it was a girly throw, and it can't sink into the rocks. After finding foil, bottle caps and pull tabs the ring was located which delighted Dee who called me her hero. She was so enthralled with the metal detecting hobby, that she purchased a metal detector from my company for her husband.

### **Lost Ring Found & Returned By Jim Tennant - August 24**

(Sent the note below to the owner.)

Hi Nicole & Trent

Good News, I have your ring!

I went over to the home on Dynes Street (which was only a couple blocks from where I live) and I got pretty lucky. The ring was just under the surface so probably someone may have stepped on it while you were searching for it. I see what you mean about the long grass. J

Anyways, it's a nice ring....how would you like me to return it to you?

Our Club Members do not ask for a reward, however once you have your ring back I would appreciate you emailing me a picture of you holding the ring, that I can put in my scrap book of "Treasures Returned."

Regards,  
Jim Tennant
